Internship

Job Oriented Value Added Course, GLA University
June 2023-July 2023

- Demonstrated a high level of expertise in database management specializing in CRUD (Create, Read, Update, Delete) operations using SQL database and MongoDB.
- Established and managed robust and efficient database connections to web applications ensuring seamless data flow and integration between frontend and backend systems.

Projects

Image Matching Game   Link

- Developed a dynamic and interactive Image Matching Game using HTML, CSS and JavaScript.
- This project challenges users to match pairs of images within a grid, testing memory and concentration skills.
- The game features a responsive design, engaging animations and intuitive user interactions.

Chat Application   Link

- Developed a real-time chat app using the MERN stack with Socket.io for instant messaging.
- Implemented secure user authentication with JWT and MongoDB for data storage.

Educational Background

Bachelor of Technology in Computer Science:
GLA University 2025

Intermediate:
Seemax International School 2021

High School:
Seemax International School 2019

Declaration

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.

Skills

Technical Skills

- Java, Python
- HTML, CSS, JavaScript
- MERN, Next.js
- UX/UI Design

Tools/Sofware

- VS Code
- MongoDB
- PostgreSQL, Github
- Framer, Figma

Languages

- English
- Hindi

Certification

- Python for Data Science by IBM.
- Big Data Technology by
- FutureSkills.

Additional Information

- Currently working as a member of college's coding club (CFPY).
- Volunteer at the college's event (IT Mela).
- Solved 400+ problems on leetcode.
